

Name: _____

Biodiversity

What is DNA?

What is different between the two rows?

ATGCTTAGTACCTAGTACCTAGTCTAGTAGCTAT
ATGCATAGTACCTAGTACCTTGTCTACTAGCTAT

How many times can the DNA in one person placed
back-to-back go around the Earth? _____

What percent of diversity has been lost in crops?

Why is biodiversity important?

Provide one way humans contribute to the extinction of species?

Suppose you have a group of scientists and a million dollars. Propose a solution to the
loss of biodiversity. Be creative, and work with your partners:
